# Transition of the Modelica Standard Library to GitHub

## 15th Modelisax Meeting

Thomas Beutlich  
03/01/2017

# MSL Transition

- All sources of the MSL moved from Subversion to Git (including revision history)
  - Modelica
  - ModelicaReference
  - ModelicaServices
  - ModelicaTest
- All open and closed (with exception of the hidden) Trac tickets on the MSL moved to GitHub with ticket numbers kept synchronized, e.g.,
  - <https://trac.modelica.org/Modelica/ticket/2017> -> <https://github.com/modelica/Modelica/issues/2017>
- Transition task run from January 13 to 15, 2017 based on a paid contract between ESI ITI and the Modelica Association
- Git repository maintenance was performed by Dietmar Winkler (also as paid work)
- Old Subversion repository and Trac tickets are set to read-only

# MSL Development

- Git repository: <https://github.com/modelica/Modelica>
- Open issues: <https://github.com/modelica/Modelica/issues>
- Closed issues: <https://github.com/modelica/Modelica/issues>
- Releases (from v1.3.1 to v3.2.2): <https://github.com/modelica/Modelica/releases>
- Documentation: <http://doc.modelica.org>
  
- TBD within Modelica Association Library Project:
  - Git contribution workflow
  - Pull request strategy
  - Wiki maintenance

**Thanks for contributing!**
